

Landscape Architect / Urban Designer

Experience: 10 years minimum

Posted: May 18, 2023

Position: Full Time

Location: Portland, Oregon, hybrid schedule option

Mayer/Reed is a nationally recognized, interdisciplinary design firm located in Portland, Oregon. We are dedicated to making creative design contributions that bring value to and enhance the built environment. We believe that good design, informed by a collaborative process, functions within multiple contexts. Dedicated to this premise, Mayer/Reed continues to evolve by attracting and encouraging highly motivated and talented staff and by seeking relationships with socially and environmentally responsible clients who inspire visionary design solutions.

Mayer/Reed has an opportunity for an experienced, licensed landscape architect / urban designer with ability to assist with and lead design projects within a collaborative and interdisciplinary team environment. You will oversee and manage projects from conceptual design through construction documentation with a keen eye toward quality design considerations and user experience.

Responsibilities include development of site analysis and programming, concept design development, illustrative graphics, client and stakeholder presentations and preparation of land use review packages. Project management tasks include overseeing scopes, budgets and schedules. Strong organizational, verbal and written communication skills are highly valued. This position includes opportunities to support business development, assisting with proposal writing and development of scope and fees for design efforts.

Candidates should demonstrate experience for a range of project types including urban public open spaces, active transportation related work, and parks and recreation. Portfolio should include examples from planning and concept design development through final construction, demonstrating the preparation of detailed construction plans and specifications, and design services during construction.
